Need Talent Cockpit

Need Talent Cockpit

Today, companies working on a project basis need to determine the needs of the projects correctly and look for employees accordingly. However, this manual search is both time-consuming and prone to faulty capacity planning.

Need Talent Cockpit bridges SuccessFactors, JIRA, LinkedIn and SAP Sales & Service Cloud using SAP DWC, and automatically lists the best candidates for your resource needs, prioritizing project profitability.

Scope

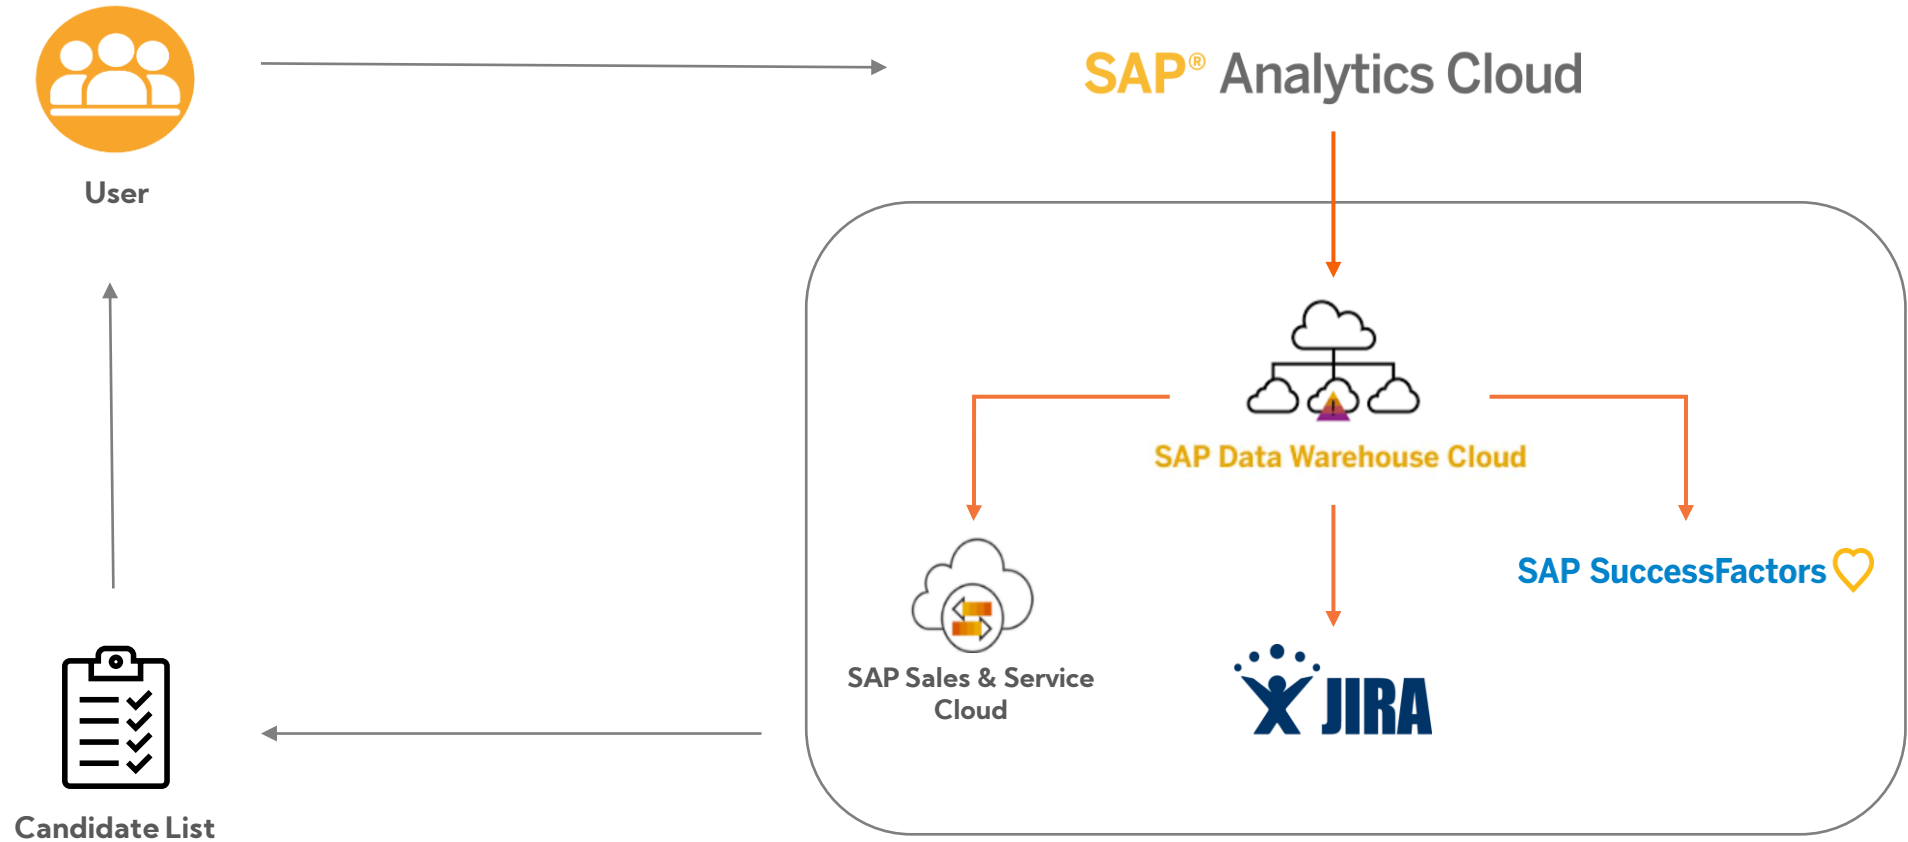

- Extract data from SAP Sales & Service Cloud or JIRA to list possible project opportunities with DWC.
- With SuccessFactors, position requests are collected from LinkedIn and the company.
- Bridges DWC to SuccessFactors, JIRA and SAP Sales & Service Cloud.
- Data collected from SuccessFactors, JIRA and SAP Sales & Service Cloud are analyzed.
- Appropriate candidates are listed, taking into account project profitability and employee salaries.

Source System Types

- SAP SuccessFactors (which will connect to LinkedIn)
- SAP Sales & Service Cloud
- JIRA

Solution Cycle

Why Need Talent Cockpit

- Automates capacity planning of systems and eliminates manual errors
- Ease in project resource management
- Increase in project profitability
- Accelerates the acquisition of needed resources
- Ease of project tracking and budget control
